Profile

Motivated software engineering student with a strong focus on web development, proficient in React, TypeScript, and more. Experienced in building efficient, user-friendly applications and always eager to expand my knowledge by learning new technologies. Strong team player with a focus on problem-solving, clean code, and following best practices to deliver high-quality software solutions.

Professional Experience

SOFTWARE ENGINEERING   AUG-SEP 2024
E-BO ENTERPRISES – Ostend, Belgium

- Created and maintained web applications using React and TypeScript, contributing to both front-end functionality and user experience improvements.
- Worked on a NATO project to develop a secure plugin for signing and sending emails, using C# and TypeScript to ensure data integrity and confidentiality.
- Gained valuable experience working within a team, learning to write cleaner, more efficient code while following industry best practices.

WEB DEVELOPER   AUG 2023
APOTHEEK DUINEN – Bredene, Belgium

- Developed a website using Next.js and TypeScript to increase the pharmacy's online presence and attract more customers.
- Built an appointment scheduling tool that allowed patients to book vaccinations and business consultations, streamlining the pharmacy's operations.
- Focused on user-friendly design and functionality to improve customer engagement and ease of use.

MARKETING   AUG 2020 & 2021
CGM BELGIUM – Ostend, Belgium

- Filmed and edited marketing videos to highlight key features of a software product, making it easier for potential customers to understand and engage with.
- Helped transition client contracts from paper to digital, simplifying the process and making everything more efficient for the team.
